I had two front end electrical replacements today. I replaced the electrical from the firewall forward on 1966 Ford Mustang. The other one was same, but on a 1967 Ford Mustang that I will finish up on Saturday. Both of these Classic Mustangs had the original wiring harnesses. They suffered from brittle wiring, and several repairs over the years.

I called today and spoke to one of your Technicians. I had purchased one of your engine harnesses for my 1963 Chevy II Nova and the light harness. I did all the wiring as described, but had no power throughout the car. The Nova still has its original wiring except for the cables I upgraded with American Autowire.
