The reverse light is the white light that lights up when your RL is in reverse. The video above shows you how to change the reverse light in your 2008 Acura RL. These bulbs burn out occasionally and help you see when you are backing up. The reverse light gets dimmer over time and we suggest changing them in pairs.

### **Specifications | 2008 Acura RL | Acura Owners Site**

Controlling engine and transmission temperatures in your 2008 Acura RL is a difficult job. While the radiator, cooling fan relay (or fan clutch), and cooling fan keep coolant from getting too hot, the thermostat makes sure the antifreeze doesn't get too cold. The area in between is the ideal operation range for your engine.
