critical to the rounding process and to meeting the goals of the rounds. Many hospitals have found that using the structure of multidisciplinary rounds to identify daily goals for each patient is an effective approach. Setting individual patients' goals helps focus the efforts of the care team and prioritizes the work for that day.

### **How-to Guide: Multidisciplinary Rounds**

CP Console provides the tools to build the flowsheet views and layouts that are used in inpatient settings for patient care, for recording vital statistics as necessary. It also provides a means for configuring the CP Gateway, configuring the CP ADT Feed, assigning permissions to CP Flowsheets users, and system administration.
