FUJIFILM XF10 Owner's Manual

First, you want to set the camera to use both auto and manual focus. Go to the AF MF Menu and turn AF+MF On. This means that the camera will use auto-focus when you press the shutter halfway. But if you want, you can also use the focus ring on your lens to adjust focus; just start turning it while you're holding down the shutter.

Tips for Using Auto and Manual Focus on the Fujifilm X100F ...

In manual focus, the LCD is smart enough to zoom automatically as you're twiddling the manual focus ring (the rear round ring). The X10's charger can charge either the NP-50, or an NP-45, battery.

If you wish to use manual focus flick the switch on the front, left side if you looking at the front of the camera, and focus using the sub-command dial. I've not actually experimented with manual...

macro mode on fuji x10 | ePHOTOzine

The Fujifilm X10 is the company's first entry into what is becoming an increasingly crowded enthusiast compact camera segment. The proliferation of smartphone camera use - coming at the expense of traditional compact camera sales - sees manufacturers showing a welcome interest in catering to the needs of enthusiasts. These users often desire a second 'carry-anywhere' camera but still value ...

The control resolution of the manual focus ring has been improved. Its rotating angle of 120 degrees means the focus plane can be adjusted from the minimum working distance to infinity quickly with minimal movement. The ring is also smooth to operate, responding to subtle movements of the fingertips, to achieve an accurate focusing.
