ICRP 15 (3). Abstract - In 1977, the International Commission on Radiological Protection issued ICRP Publication 27, "Problems Involved in Developing an Index of Harm". That report discussed the difficulties of making an appropriate comparison of radiation and other effects and suggested a quantitative index to take account of the length of life or full activity lost as a result of occupational causes.

INTERNATIONAL COMMISSION ON RADIOLOGICAL PROTECTION

ICRP began numbering its publications in 1960, although ICRP's 1959 recommendations are now referred to as Publication 1. Before this time, the recommendations are generally referred to by the year in which they were issued.

Publications - ICRP

The ICRP Chair, Vice-Chair, and Scientific Secretary work together closely to run ICRP in an executive manner. The Main Commission, led by the Chair, acts as a board of directors, setting policy and general direction. All ICRP reports are approved by the Main Commission prior to publication.
